INDEPENDENT AUDITOR'S REPORT

**To the Board of Directors of
Montecito Sanitary District:**

Report on the Financial Statements

We have audited the accompanying basic financial statements of the Montecito Sanitary District (the "District") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America as well as the accounting systems prescribed by the State Controller's Office and state regulations governing special districts; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's *Minimum Audit Requirements for California Special Districts*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the District as of June 30, 2015 and the respective changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America, as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

Emphasis of Matters

As discussed in Note 2 and Note 12 to the basic financial statements, Montecito Sanitary District has implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, during fiscal year 2015. The adoption of this standard required retrospective application resulting in a \$1,581,405 reduction of net position as of July 1, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 12, the California Public Employees' Retirement System Schedule of Montecito Sanitary District's Proportionate Share of the Net Pension Liability on page 38, the California Public Employees' Retirement System Schedule of Montecito Sanitary District's Contributions on page 39, and the Other Postemployment Benefits (OPEB) Plan Schedule of Funding Progress on page 40, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Montecito Sanitary District's basic financial statements. The list of the Board of Directors and the Schedule of Operating Expenses – By Department on pages 41 and 42 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Operating Expenses – By Department is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Operating Expenses – By Department is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The list of board of directors on page 41 has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis (MD&A) is a key element of the District's annual audited financial statements that are prepared in accordance with the Governmental Accounting Standards Board Statement No. 34 (GASB 34). The purpose of the MD&A is to provide an overview of the District's financial condition and to highlight important changes and activities with fiscal implications that occurred during the fiscal years (FY) 2014-2015. We encourage readers to consider the information presented here in conjunction with the District's financial statements and related notes, which follow this section.

District Overview

Montecito Sanitary District (the District) provides wastewater collection, treatment, and disposal for most of the community of Montecito. The Montecito Sanitary District is an independent special district voted into existence in 1947, by the residents of Montecito to provide for the collection, treatment and disposal of wastewater. In 1961, the District constructed a secondary plant capable of processing 750,000 gallons per day, including an ocean outfall pipeline (located 1,500 feet offshore) and trunk sewer system.

In 1981 the voters approved \$3.1 million in revenue bonds to incorporate new technology, and double the plant's capacity to 1.5 million gallons per day. The plant's capacity remains at 1.5 million gallons per day (mgd). The average daily flows for FY 14-15 were approximately .7 million gallons per day (mgd). In March 2007 the District issued Certificates of Participation (COPs) in the amount of \$14,765,000. These funds are being used for capital replacement projects. The District's mission has always been and continues to be "to protect public health and safety and to preserve the natural environment through the collection, treatment and disposal of wastewater in the most cost-effective way possible."

There are still areas that do not have sewer available but are within the District's boundaries, and there are currently 83 properties using on-site septic systems that have sewer available. The current number of residential connections is 3059 and there are 39 commercial and/or institutional connections. Coast Village Road businesses are not within the boundaries of the District; they are served by the City of Santa Barbara.

Management and Governance

The District is governed by a five-member Board of Directors. The Directors are elected on an at-large basis for four-year terms. In 2001, the Board voted to align its elections with the Statewide General Elections to increase voter turnout and achieve a substantial cost savings. At the Board's discretion an Organizational Meeting is held at least every other year to assign officers' duties and to appoint the standing Committee Representatives. This process generally results in a rotation of duties among the Board members. The established Committees meet on an as-needed basis. If necessary, Ad Hoc Committees are formed for special projects. It is the Board that approves the annual operating and capital budgets and authorizes expenditures of the District's funds.

The District employs a General Manager as the chief executive. The General Manager reports directly to the Board of Directors and is responsible for the overall operation and administration of the District. The District's Management Staff also includes a District Administrator who is the chief administrator, an Operations Manager, and a Lab and Pretreatment Manager. The District had 15 full-time authorized positions in FY 2014-15.

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Statements

This discussion and analysis provides an introduction and a brief description of the District's financial statements, including the relationship of the statements to each other and the significant differences in the information they provide. The District's financial statements include four components:

- Statement of Net Position
- Statement of Revenues, Expenses and Changes in Net Position
- Statement of Cash Flows
- Notes to the Financial Statements

The statement of net position includes all the District's assets and deferred outflows and liabilities and deferred inflows, with the difference reported as net position. Net position is categorized as follows:

- Net Investment in Capital Assets
All property not easily converted to cash and held for a long period of time (real estate, equipment, etc.)
- Restricted
Assets/Cash needed to pay liabilities and may be restricted according to law or regulation, i.e., Certificates of Participation proceeds.
- Unrestricted
Any asset that is not restricted, i.e., cash

The statement of net position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

The statement of revenues, expenses and changes in net position presents information which shows how the District's net position changed during the year. All of the current year's revenues and expenses are recorded when the underlying transaction occurs, regardless of the timing of the related cash flows. The statement of revenues, expenses and changes in net position measures the success of the District's operations over the past year and determines whether the District has recovered its costs through user fees and other charges.

The statement of cash flows provides information regarding the District's cash receipts and cash disbursements during the year. This statement reports cash activity in four categories:

- Operations
- Non-capital financing
- Capital and related financing
- Investing

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

This statement differs from the statement of revenues, expenses and changes in net position because the statement of cash flows accounts only for transactions that result in cash receipts or cash disbursements.

The notes to the financial statements provide a description of the accounting policies used to prepare the financial statements and present material disclosures required by generally accepted accounting principles that are not otherwise present in the financial statements.

Financial Highlights

- With the implementation of GASB 68 effective for fiscal year 2014-15, items pertaining to CalPERS pension liability will now be calculated and reported on the District's financial statements, and not just mentioned in the notes. Unfunded Pension Liability, along with Deferred Inflows and Outflows are reported on the financial statements for the first time. The implementation of this requirement resulted in a prior period adjustment in the amount of \$1,581,405.
- The District's net position decreased 4.89% or \$1,186,188 to \$23,061,921 in fiscal year 2014-2015 as a result of \$395,217 from operations and \$(1,581,405) from a prior period adjustment to implement Governmental Accounting Standards Board Statement No. 68.
- The District's operating revenues increased by 1.59% and operating expenses increased by 10.14% in FY 2014-2015.

Financial Analysis of the District

The following is a summary of the District's statement of net position:

	June 30, 2015	June 30, 2014	% Change FY 2014- 2015 and 2013-2014
Assets:			
Current assets	\$ 11,754,893	10,850,949	8.33%
Noncurrent assets:			
Restricted assets	3,267,616	3,478,012	-6.05%
Capital assets	23,787,097	24,276,443	-2.02%
Total Assets	<u>38,809,606</u>	<u>38,605,404</u>	<u>0.53%</u>
Deferred Outflows of Resources:			
Deferred pensions	<u>158,355</u>	<u>-</u>	<u>100.00%</u>
Liabilities:			
Current liabilities	967,061	786,825	22.91%
Long term liabilities	14,473,560	13,570,470	6.65%
Total Liabilities	<u>15,440,621</u>	<u>14,357,295</u>	<u>7.55%</u>
Deferred Inflows of Resources:			
Deferred pensions	<u>465,419</u>	<u>-</u>	<u>100%</u>

The following is a summary of the District's statement of net position (continued):

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

	June 30, 2015	June 30, 2014	% Change FY 2014- 2015 and 2013-2014
Net Position:

Non-operating income	<u>50,283</u>	<u>270,107</u>	<u>-81.38%</u>
Excess of revenue over expenses	389,795	945,714	-58.78%
Capital contributions	<u>5,422</u>	<u>39,368</u>	<u>-86.23%</u>
Change in net position	<u>395,217</u>	<u>985,082</u>	<u>-59.88%</u>
Net position, beginning of year	24,248,109	23,263,027	4.23%
Prior period adjustment	<u>(1,581,405)</u>	<u>-</u>	<u>100.00%</u>
Net position, beginning of year, as restated	<u>22,666,704</u>	<u>23,263,027</u>	<u>-2.56%</u>
Net position, end of year	<u>\$ 23,061,921</u>	<u>\$ 24,248,109</u>	<u>-4.89%</u>

**MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Sources of Revenue

The following is a table of the Districts revenues broken down by major source:

Revenue Category	2014-15	2013-14	% Change FY 2014- 2015 and 2013-2014
Service charges	\$ 4,558,161	\$ 4,467,496	2.0%
Connection fees	199,935	226,979	-11.9%
Other services	48,019	36,425	31.8%
Operating revenue	<u>4,806,115</u>	<u>4,730,900</u>	<u>1.6%</u>
Investment income	57,279	72,465	-21.0%
Property taxes	498,630	475,861	4.8%
Other revenue/expense	<u>(86,041)</u>	<u>16,945</u>	<u>-607.8%</u>
Nonoperating revenue	<u>469,868</u>	<u>565,271</u>	<u>-16.9%</u>
Total revenue	<u>\$ 5,275,983</u>	<u>\$ 5,296,171</u>	<u>-0.4%</u>

Sewer Service Charge (SSC)

The major source of revenue for the District is the Sewer Service Charge(s) (SSC). The 2014-2015 service charges revenue increased approximately 2.0% from the prior (2013-2014) fiscal year (FY). The District's total annual SSC revenue for FY 2014-2015 was \$4,558,161; which amounted to 86.4% of the total revenues and 94.8% of the total operating revenue. The District's total annual SSC revenue for FY 2013-2014 was \$4,467,496; which amounted to 84.4% of the total revenues and 94.4% of the total operating revenue.

The District maintains a Teeter Plan agreement with the County of Santa Barbara. Under this agreement, the District receives the total guaranteed amounts of SSC revenue reported to the County each year and the County collects these funds from the District's customers on their bi-annual property tax statements.

A 3-year planned and approved rate increase structure went into effect beginning with FY 2009-2010 and ran through FY 2011-2012. The rates in FY 2012-2013 and 2013-2014 remained the same as the previous year, and continue to remain the same in FY 2014-2015. The rate increases were validated and approved by following the procedures and requirements of Proposition 218. The rate increases were necessary to keep up with the rising operations and maintenance costs, debt service payments and depreciation funding of the District's capital assets.

Connection Permit Fees

The Connection Fee collected on District permits is the fee charged for connection to the District's sanitary sewer system, intended to cover or recoup infrastructure costs incurred to provide service. Connection fees collected for the FY 2014-2015 were \$199,935 and for the FY 2013-2014 were \$226,979.

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

Connection Permit Fees (continued)

The District's Governing Board of Directors voted to increase the connection fees to \$7,300 per dwelling unit effective January 1, 2011 with Resolution No. 2010-861. Those fees remain the same for FY 2014-2015.

Investment Income

The District's current approved investment policy, under Resolution No. 2013-883, states that it shall be the policy of the District to invest funds, with maximum security through diversification and prudence, in a manner which will provide the highest investment return, while meeting the daily cash flow demands of the entity and conforming to all statutes governing the investments of District funds.

In keeping with that policy, the District Board chose to distribute the District's monies between two investment vehicles: the Santa Barbara County Investment Pool, and the Local Agency Investment Fund (LAIF) which is a State controlled investment pool. Funds are readily available from either pool, but the District has thus far used the Santa Barbara County Pool as its major source of operating funds since revenues from property taxes are part of that pool, as well as the District's sewer service charges that are collected by means of the County's tax roll.

Interest revenues received, excluding those earned from the Certificates of Participation (COP) monies; within the 2014-15 FY from the two investment pools was \$38,182. Interest earned from the COP monies was \$8,697. Minor checking account interest in the amount of \$18 was earned for the Running Expense account at Union Bank. Investment income for the 2014-2015 FY also reflects a fair market value adjustment of \$10,382 from the two investment pools.

Property Tax

The District receives one half of 1% of the total property tax revenue that is collected by the County of Santa Barbara for parcels within its service area whether or not they are a customer of the District. The property tax revenue (shown on **Sources of Revenue** table on page 8) is inclusive of secure, unsecured, unitary, and supplemental property taxes.

Operating Expenses

The District's operating expenses (not including depreciation) for FY 2014-2015 were \$3,413,150 and for FY 2013-2014 were \$3,116,296. This is an overall increase for FY 2014-2015 in actual operating expenses of 9.5%. Depreciation expense for FY 2014-2015 was \$1,053,453 and for FY 2013-2014 was \$938,997. A tabular summary of the expenditure increases or decreases versus the previous fiscal year is presented on the following page.

**MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Expenditure increases or decreases in fiscal year 2014-15 versus fiscal year 2013-14 were as follows:

Expense Category	Expenses FY 2014/2015	Expenses FY 2013/2014	FY 2014/15 Expense Increase (Decrease)	Difference	Comments/Justification
Personnel (Salaries, Payroll Taxes, WC Insurance, and Benefits)	\$ 2,208,756	\$ 2,039,318	\$ 169,438	8.3%	New hires to bring to full staffing level
Pooled Liability and Other CSRMA Insurance Programs	48,861	46,565	2,296	4.9%	Decrease in insurance dividend
Maintenance, Repairs, Operating Supplies/Equip, and Contracted Services	649,878	569,247	80,631	14.2%	Brought maintenance function in-house, purchase of required tools, maint equipment
Utilities, Telephone, Fuel and Oil	197,335	184,516	12,819	6.9%	Increase in utility charges
Research & Monitoring	16,213	28,771	(12,558)	-43.6%	Large lab equipment purchase in the prior year
Office Expenses, and Misc. Administrative Costs	30,607	20,316	10,291	50.7%	Special projects - Plant site study for master plan, sewer lateral rebate postcards
Professional Services, Administrative Fees, and Memberships	222,441	196,145	26,296	13.4%	Ocean bottom sampling in FY14-15 (occurs once in a 5 year permit period)
Training, Safety and Travel Expenses	39,059	31,418	7,641	24.3%	Additional training, fines
Subtotals	3,413,150	3,116,296	296,854	9.5%	
Depreciation	1,053,453	938,997	114,456	12.2%	Increase in depreciable assets FY 14-15
Totals	\$ 4,466,603	\$ 4,055,293	\$ 411,310	10.1%	

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

**Certificates of Participation (COPs) – California Special Districts Association (CSDA)
Finance Corporation – 2007 Series UU**

Due to an urgent need for capital improvement project funds in FY 2006-07 the District worked with CSDA and CSDA's financial consultant, Mr. Saul Rosenbaum, at Prager, Sealey & Co. Inc. to seek funding through the issuance of COPs. The District contracted the services of Fieldman, Rolapp & Associates, independent financial advisors. The Board and General Manager saw this as a means to ensure the District would have the funds necessary to complete a list of capital projects deemed to be mission critical to the District's efforts to provide the kind of service expected and mandated by federal and state regulations, and to ensure the environmental health and safety of the community in which the District serves. The Acquisition Fund began with \$10,533,493 in 2007. As of June 30, 2015 the District has spent \$10,132,431 of the Acquisition Fund on Board approved Mission Critical Projects. Capital expenditures of the COP funds from July 1, 2014 through June 30, 2015 total \$218,952. The balance of available funds from the Acquisition Fund monies at June 30, 2015 was \$1,671,417. This remaining balance includes original principal of \$401,062 plus dividends/interest earned since inception, plus contributed capital amounts reimbursed to the Acquisition Fund by the District.

During FY 2014-2015 multiple projects were completed with the COP funds. These projects included the carport construction on the Collections building, the trellis built onto the Administration building, repair of the RAS/WAS pumps, manhole raisings and emergency sewer repairs in various areas throughout the District.

Annual Audited Financial Statements

At the end of each fiscal year, the District is audited by an independent certified public accounting firm qualified to perform government accounting audits. The financial statements consist of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a financial whole, an entire operating entity. These statements then proceed to provide a detailed look at specific financial activities. This annual report consists of two parts – management's discussion and analysis (this section) and a series of basic financial statements.

The annual financial statements include the Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows, followed by various and specific notes to those financial statements.

Additionally, the financial report includes required supplementary information, as well as other supplemental information as noted in the table of contents.

MONTECITO SANITARY DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

Future Rate Increases/Expenses

The District ended a 3-year approved rate increase plan with FY 2011-2012 (June 30, 2012). These increases from the previous years enabled the District to collect service-generated revenues to cover not only the daily operations and maintenance costs, but monies to fund future rehabilitation projects to maintain system integrity. The District's sewer service charges for FY 2014-2015 continued at the same rate as FY 2013-2014, 2012-2013, and FY 2011-2012.

On June 14, 2010, the Board authorized the creation of a separate account fund for Retirement Medical Benefits and as of June 30, 2015, there was \$85,690 in this account. Additional monies are deposited in July of each Fiscal Year. Retirement Medical Benefits are only available to employees hired prior to July 1, 2010. There are only 3 current and 3 former employees eligible for this benefit. See financial statement Note 9 regarding Post-Employment Health Care Benefits.

On May 26, 2009, the Board authorized the creation of a separate fund for depreciation. Effective July 1, 2009, the County-Auditor Controller's office established a fund titled Montecito Sanitary Capital Replacement Fund and as of June 30, 2015 there was \$6,086,998 in this fund. Additional amounts may be contributed annually based on the annual depreciation expense as approved by the Board. The District may withdraw monies from the Capital Replacement Fund at any time to fund Capital projects or to meet operational, maintenance or any type of financial need of the District.

Contacting the District's Financial Management

This financial report is designed to provide the District's customers, creditors, and other interested parties with a general overview of the District's finances and to demonstrate the District's accountability of the money it receives. If you have any questions about this report or need additional financial information, contact Toni M. McDonald, District Administrator/Board Clerk, at 1042 Monte Cristo Lane, Santa Barbara, CA 93108, or by telephone at (805) 969-4200.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Reporting Entity

Montecito Sanitary District was organized in 1947, pursuant to the Sanitary District Act of 1923, to provide sewage collection and treatment for residents within the District's geographical boundaries.

The District is governed by a board of directors consisting of five members elected at large. The Directors receive fees for attendance at Board and Committee meetings. The Board employs a District Manager/District Engineer and such other personnel as are required to meet its responsibilities.

Note 2 - Summary of Significant Accounting Policies

A) Accounting Policies

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants (AICPA).

B) Accounting Basis

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to private business enterprise, where the intent of the District is that the costs, including depreciation, of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. The accounts are maintained and these financial statements are presented on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses recognized when they are incurred. An enterprise fund is accounted for on the "flow of economic resources" measurement focus. This means that all assets and liabilities, whether current or long term, are included on the statement of net position.

The District distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and the producing and delivering of goods in connection with the District's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The financial statements of the District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting financial reporting principles.

C) Budget

The District prepares an annual budget which estimates major sources of revenue to be received during the fiscal year, as well as estimated expenditures needed for operation of District facilities.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

D) Cash and Cash Equivalents

For purposes of the statement of cash flows, cash and cash equivalents include restricted and unrestricted cash and restricted and unrestricted certificates of deposit with original maturities of three months or less.

E) Property, Plant and Equipment

Capital assets purchased by the District are recorded at cost. Contributed or donated capital assets are recorded at fair value when acquired. Interest incurred during the construction period of an asset is capitalized as part of the cost.

F) Depreciation

Capital assets purchased by the District are depreciated over their estimated useful lives (ranging from 5-80 years) under the straight-line method of depreciation.

G) Accumulated Vacation, Compensated Time Off and Sick Leave

Accumulated unpaid employee vacation, compensated time off, and sick leave benefits are recognized as liabilities of the District.

H) Property Taxes

Property taxes in the State of California are administered for all local agencies at the county level, and consist of secured, unsecured, and utility tax rolls. The following is a summary of major policies and practices relating to property taxes:

Property Valuations – are established by the Assessor of the County of Santa Barbara (County) for the secured and unsecured property tax rolls; the utility property tax roll is valued by the State Board of Equalization. Under the provisions of Article XIIA of the State Constitution (Proposition 13 adopted by the voters on June 6, 1978), properties are assessed at 100% of full value. From the base assessment, subsequent annual increases in valuation are limited to a maximum of 2%. However, increases to full value are allowed for property improvements or upon change in ownership. Personal property is excluded from these limitations, and is subject to annual reappraisal.

Tax Collections – are the responsibility of the County Tax Collector. Taxes and assessments on secured and utility rolls which constitute a lien against the property, may be paid in two installments: the first is due on November 1 of the fiscal year and is delinquent if not paid by December 10; and the second is due on March 1 of the fiscal year and is delinquent if not paid by April 10. Unsecured personal property taxes do not constitute a lien against real property unless the taxes become delinquent. Payment must be made in one installment, which is delinquent if not paid by August 31 of the fiscal year. Significant penalties are imposed by the County for late payments.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

H) Property Taxes (continued)

During the fiscal year ended June 30, 1994, the District adopted the “Teeter Plan” as defined in the Revenue and Taxation Code. Under this plan, the District is guaranteed 99.6% of the secured property taxes each year. The District is also assured of receiving 95% of the unsecured property taxes for each fiscal year by July 31 of the following fiscal year. The remaining 5% is placed in a Tax Loss Reserve Fund which will be used to offset future tax sale losses incurred by the County. Additionally, the District is assured of receiving 100% of its sewer service charges for each fiscal year by July 31 of the following year.

Tax Levy Apportionments – Due to the nature of the District-wide maximum levy, it is not possible to identify general purpose tax rates for specific entities. Under State legislation adopted subsequent to the passage of Proposition 13, apportionments to local agencies are made by the county auditor-controller based primarily on the ratio that each agency represented of the total District-wide levy for the three years prior to fiscal year 1979.

Property Tax Administration Fees – The State of California FY 90-91 Budget Act, authorized counties to collect an administrative fee for collection and distribution of property taxes. Property taxes are recorded as net of administrative fees withheld during the fiscal year.

Tax Levies – are limited to 1% of full value which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13. Tax rates for voter-approved indebtedness are excluded from this limitation.

Tax Levy Dates – are attached annually on January 1 preceding the fiscal year for which the taxes are levied. The fiscal year begins July 1 and ends June 30 of the following year. Taxes are levied on both real and unsecured personal property as they exist at that time. Liens against real estate, as well as the tax on personal property, are not relieved by subsequent renewal or change in ownership.

I) Annual Appropriations Limit

The District is exempt from the annual appropriations limit required by Senate Bill 813 (Chapter 1025, Statutes of 1987) in accordance with California Constitution Article XIII B. This exemption is based on a tax rate not greater than 12-1/2 cents per \$100 of assessed valuation in 1978.

J) Net Position

Net position represents the difference between assets and deferred outflows, and liabilities and deferred inflows, and is classified into three components as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

J) Net Position (continued)

Restricted – This component of net position consists of assets which are legally restricted by outside parties for use for a specific purpose.

Unrestricted – This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.” Dedicated net position represents unrestricted assets which are segregated by the Board of Directors for specific future uses.

When an expense is incurred for purposes for which both unrestricted and restricted resources are available for use, it is the District's policy to apply restricted assets first, then unrestricted resources.

K) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, as prescribed by the GASB and the AICPA, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period.

Significant estimates used in preparing these financial statements include useful lives of capitalized assets and the liability for postretirement healthcare benefits. It is at least reasonably possible that the significant estimates used will change within the next year.

L) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Montecito Sanitary District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M) Implementation of New Accounting Pronouncements

For the year ended June 30, 2015, Montecito Sanitary District implemented the following Governmental Accounting Standards Board (GASB) Pronouncements:

Statement No. 68 *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers* and Statement No. 50, *Pension Disclosures*, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. Statement 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Summary of Significant Accounting Policies (continued)

M) Implementation of New Accounting Pronouncements (continued)

measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (RSI). The provisions of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014.

Statement No. 71 *Pension Transition for Contributions Made Subsequent to the Measurement Date*. This Statement amends paragraph 137 of Statement No. 68. The requirements of this Statement apply to all state and local governments that are required to apply the provisions of Statement No. 68 for defined benefit pensions. This statement recognizes that at the beginning of the period in which the provisions of Statement No. 68 are adopted, there may be circumstances in which it is not practical for a government to determine the amounts of all applicable deferred inflows of resources and deferred outflows of resources related to pensions. In such circumstances, the government should recognize a beginning deferred outflow of resources only for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability but before the start of the government's fiscal year. Additionally, in those circumstances, no beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions should be recognized. The provisions of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014.

Note 3 - Cash and Investments

Cash and investments are classified in the accompanying financial statements, at fair value, at June 30, 2015 as follows:

	<u>June 30, 2015</u>
Unrestricted:	
Cash and investments, undesignated	\$ 5,521,783
Cash designated for retirement benefits	85,690
Cash designated for capital replacement	6,086,998
Restricted cash from bond proceeds	<u>3,267,616</u>
Total cash and investments	<u>\$ 14,962,087</u>

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 3 - Cash and Investments (continued)

Investments are carried at fair value as determined by the external investment pool sponsor. Cash and investments as of June 30, 2015 consist of the following:

	<u>June 30, 2015</u>
Cash on hand	\$ 250
Deposits held with financial institutions	270,719
Cash with fiscal agent	647,143
Deposits held in pooled investment funds	<u>14,043,975</u>
Total cash and investments	<u>\$ 14,962,087</u>

Investments Authorized by the District's Investment Policy

The District's investment policy authorizes investments selected on the basis of credit worthiness, financial strength, experience, and minimal capitalization. The District shall select only licensed brokers and dealers in good standing with the California Department of Securities, the Securities and Exchange Commission, the National Association of Securities Dealers, or other applicable self-regulatory organizations. The District is prohibited from investing in any funds in inverse floaters, range notes, interest-only strips derived from mortgage pools, or any investment which may result in a zero interest accrual if held to maturity. It is the District policy to diversify its investment portfolio to eliminate the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities.

The primary objectives of the District's investment activities in priority order are: safety, liquidity, and return on investments. Investments shall be chosen with judgment and care, considering the probable safety of their capital as well as the probable income to be derived. Although the District has pre-authorized investment categories per Resolution No. 2013-883, the only investments in practice are those in the local government investment pool administered by the State of California (LAIF) and the Santa Barbara County Investment Pool.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 3 - Cash and Investments (continued)

Disclosures Relating to Interest Rate Risk (continued)

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30, 2015:

Investment Type	Carrying Amount	Remaining Maturity (in Months)			
		12 Months or Less	13-24 Months	25-60 Months	More than 60 Months
LAIF	\$ 4,272,153	\$ 4,272,153	\$ -	\$ -	\$ -
Santa Barbara County Investment Pool	<u>9,771,822</u>	<u>9,771,822</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total	<u>\$ 14,043,975</u>	<u>\$ 14,043,975</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code and the District's investment policy, and the actual rating as of June 30, 2015 for each investment type.

	Carrying Amount	Minimum Legal Rating	Exempt From Disclosure	Rating as of Fiscal Year End		
				AAA	AA	Not Rated
LAIF	\$ 4,272,153	N/A	\$ 4,272,153	\$ -	\$ -	\$ -
Santa Barbara County Investment Pool	<u>9,771,822</u>	N/A	<u>9,771,822</u>	<u>-</u>	<u>-</u>	<u>-</u>
Total	<u>\$14,043,975</u>		<u>\$14,043,975</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of total District investments.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 3 - Cash and Investments (continued)

Custodial Credit Risk

The custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provisions for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

None of the District's deposits with financial institutions in excess of federal depository insurance limited were held in uncollateralized accounts.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF and the Santa Barbara County Investment Pool).

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying basic financial statements at the amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 4 - Schedule of Capital Assets

A schedule of changes in capital assets and depreciation for the fiscal year ended June 30, 2015, is shown below:

	Balance July 1, 2014	Additions	Deletions	Transfers	Balance June 30, 2015
Subsurface Lines	\$22,994,137	\$ -	\$ -	\$ 80,587	\$23,074,724
Collection Facilities	3,798,794		-	192,200	3,990,994

Net capital assets	<u>\$24,276,443</u>	<u>\$ (398,498)</u>	<u>\$ (90,848)</u>	<u>\$ -</u>	<u>\$23,787,097</u>

Note 5 - Compensated Absences

Employees are entitled to accumulate up to 120 working days of sick leave, at the rate of eight hours per month for full time employees, and pro-rated for part-time employees. If employees retire under the District's retirement program, or voluntarily resign after twenty or more years of service, they would receive full compensation for any unused sick leave, paid at their current salary level. If employees voluntarily resign with less than twenty years of service, they would receive one-half to three quarters of their unused sick leave, depending on the years of service completed.

Employees are also entitled to accumulate vacation leave at a rate of two to five weeks per year, depending on the number of years of service completed. Such accumulated leave cannot exceed two times the employee's annual entitlement. Vacation leave is fully vested at all times and will be paid to employees upon termination of employment.

Eligible employees may request the option of selecting compensatory time off (CTO) for overtime hours worked during any workweek in lieu of overtime pay. Any employee having CTO banked hours is entitled to convert such hours to pay at their regular rate at any time. All CTO hours will be subject to payout at the time of employment separation.

In accordance with accounting principles generally accepted in the United States of America, the liability is reflected on the statement of net position and the current fiscal year allocation has been expensed.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Long-Term Debt

The long-term debt liabilities of the District are as follows:

	Balance June 30, 2014	Additions	Retirements/ Amortization	Balance June 30, 2015
Series 2007 Certificates of Participation	\$ 13,585,000	\$ -	\$ (340,000)	\$ 13,245,000
Unamortized premiums	122,594		(5,331)	117,263
Net long-term debt	<u>\$ 13,707,594</u>	<u>\$ -</u>	<u>\$ (345,331)</u>	<u>\$ 13,362,263</u>

CSDA Finance Corporation Certificates of Participation 2007 Series UU

The CSDA Finance Corporation Certificates of Participation 2007 Series UU were issued March 1, 2007 in the aggregate principal amount of \$14,765,000. The CSDA Finance Corporation Certificates of Participation consisted of serial certificates in the principal amount of \$4,750,000 bearing an average interest rate of 4%, with the final installment payment due July 1, 2022, term certificates in the amount of \$2,615,000 bearing interest of 4.25% due July 1, 2027, term certificates in the amount of \$4,020,000 bearing interest of 5% due July 1, 2033, and term certificates in the amount of \$3,380,000 bearing interest of 4.3% due July 1, 2037. Interest is payable semi-annually each January 1 and July 1, commencing July 1, 2007. The Certificates shall not be subject to optional prepayment prior to July 1, 2017. The District is required to use the proceeds from the certificates to finance the following expenditures:

1. The acquisition of certain sanitary sewer improvements, in connection with the District's wastewater system.
2. To prepay the District's obligations under the installment Note dated as of May 31, 2005, between the District and Santa Barbara Bank & Trust.
3. To fund in whole or in part, a Reserve Fund for the Certificates.
4. To fund certain capitalized interest with respect to the Certificates.
5. To pay certain costs of issuing the Certificates.

Total annual requirements to amortize the Certificates of Participation are as follows:

<u>Fiscal Year End</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
6/30/2016	\$ 350,000	\$ 579,678	\$ 929,678
6/30/2017	365,000	565,378	930,378
6/30/2018	380,000	550,478	930,478
6/30/2019	395,000	534,978	929,978
6/30/2020	410,000	518,878	928,878
2021-2025	2,310,000	2,327,363	4,637,363
2026-2030	2,845,000	1,778,306	4,623,306
2031-2035	3,605,000	999,358	4,604,358
2036-2038	2,585,000	169,957	2,754,957
Total	<u>\$ 13,245,000</u>	<u>\$ 8,024,374</u>	<u>\$ 21,269,374</u>

The largest annual debt service payment during any fiscal year totals \$930,478.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Deferred Compensation Plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all District employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the employees.

Note 8 - Defined Benefit Pension Plan

General Information about the Pension Plans

Plan Descriptions –All full time employees are eligible to participate in Montecito Sanitary District’s Miscellaneous Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees’ Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and local government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website. Eligible employees hired after January 1, 2013 that are considered new members as defined by the Public Employees’ Pension Reform Act (PEPRA) are participating in the PEPRA Miscellaneous Plan. As of the valuation date there were no eligible participants in the PEPRA plan. Accordingly, disclosures do not reflect the PEPRA plan.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, as discussed above. Members with five years of total service are eligible to retire at age 50 or 52 if in the PEPRA Miscellaneous Plan with statutorily reduced benefits. An optional benefit regarding sick leave was adopted. Any unused sick leave accumulates at the time of retirement will be converted to credited service at a rate of 0.004 years of service for each day of sick leave. All members are eligible for non-duty disability benefits after 10 years of service. The system also provides for the Optional Settlement 2W Death Benefit, as well as the 1959 Survivor Benefit. The cost of living adjustments for all plans are applied as specified by the Public Employees’ Retirement Law.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Defined Benefit Pension Plan (continued)

The Plans' provisions and benefits in effect at June 30, 2015, are summarized as follows:

	Miscellaneous
Hire date	Prior to January 1, 2013
Benefit formula	2% @ 55
Benefit vesting schedule	5 years of service
Benefit payments	monthly for life
Retirement age	50-63
Monthly benefits, as a % of eligible	1.4% to 2.4%
Required employee contribution rates	6.9%
Required employer contribution rates	10.0%

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Montecito Sanitary District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2015, the contributions recognized as part of pension expense for all Plans were as follows:

	Miscellaneous
Contributions – employer	\$ 85,186

Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2015, the Montecito Sanitary District reported net pension liabilities for its proportionate shares of the net pension liability of each Plan as follows:

	Proportionate Share of Net Pension Liability
Miscellaneous	\$ 1,229,008

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Defined Benefit Pension Plan (continued)

Montecito Sanitary District's proportion of the net pension liability was based on a projection of their long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. Montecito Sanitary District's proportionate share of the net pension liability for all Plans as of June 30, 2013 and 2014 was as follows:

	<u>Miscellaneous</u>
Proportion - June 30, 2013	0.05174%
Proportion - June 30, 2014	0.04973%
Change - Increase (Decrease)	(0.00201)%

For the year ended June 30, 2015, Montecito Sanitary District recognized pension expense of \$95,210. At June 30, 2015, Montecito Sanitary District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions subsequent to measurement date	\$ 140,543	\$ -
Differences between actual and expected experience	-	-
Changes in assumptions	-	-
Changes in employer's proportion and difference between the employer's contributions and the employer's proportionate share of contributions	17,812	(39,510)
Net differences between projected and actual earnings on plan investments	-	(425,909)
	<u>\$ 158,355</u>	<u>\$ (465,419)</u>

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

\$158,355 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

<u>Year Ended June 30:</u>	<u>Amount</u>
2016	\$ (120,588)
2017	(120,588)
2018	(117,766)
2019	(106,477)
2020	-
Thereafter	-
	<u>\$ (465,419)</u>

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Defined Benefit Pension Plan (continued)

Actuarial Assumptions – The total pension liabilities in the June 30, 2013 actuarial valuations were determined using the following actuarial assumptions:

	Miscellaneous
Valuation Date	June 30, 2013
Measurement Date	June 30, 2014
Actual Cost Method	Entry Age Normal Cost Method
Actuarial Assumptions	
Discount Rate	7.50%
Inflation	2.75%
Payroll Growth	3.00%
Projected Salary Increase	Varies by entry age and service (1)
Investment Rate of Return	7.50% (2)
Mortality	Derived using CalPERS Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

(1) Depending on age, service and type of employment

(2) Net of pension plan investment expenses, including inflation

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2013 valuation were based on the results of a January 2014 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.50% for all Plans. To determine whether the municipal bond rate should be used in the calculation of a discount rate for all plans, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.50 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.50 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

According to Paragraph 30 of Statement 68, the long-term discount rate should be determined without reduction for pension plan administrative expenses. The 7.50 percent investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 15 basis points. An investment return excluding administrative expenses would have been 7.65 percent. Using this lower discount rate has resulted in a slightly higher Total Pension Liability and Net Pension Liability. CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

CalPERS is scheduled to review all actuarial assumptions as part of its regular Asset Liability Management (ALM) review cycle that is scheduled to be completed in February 2018. Any changes to the discount rate will require Board action and proper stakeholder outreach.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Defined Benefit Pension Plan (continued)

For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2017-18 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class	Net Strategic Allocation	Real Return Years 1-10 (a)	Real Return Years 11+ (b)
Global Equity	47.00%	5.25%	5.71%
Global Fixed Income	19.00%	0.99%	2.43%
Inflation Sensitive	6.00%	0.45%	3.36%
Private Equity	12.00%	6.83%	6.95%
Real Estate	11.00%	4.50%	5.13%
Infrastructure and Forestland	3.00%	4.50%	5.09%
Liquidity	2.00%	-0.55%	-1.05%

(a) An expected inflation of 2.5% used for this period

(b) An expected inflation of 3.0% used for this period

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Defined Benefit Pension Plan (continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents Montecito Sanitary District’s proportionate share of the net pension liability for all Plans, calculated using the discount rate for all Plans, as well as what Montecito Sanitary District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Miscellaneous	
1% Decrease		6.5%
Net Pension Liability	\$	2,214,599
Current Discount Rate		7.5%
Net Pension Liability	\$	1,229,008
1% Increase		8.5%
Net Pension Liability	\$	410,987

Pension Plan Fiduciary Net Position – Detailed information about all pension plan fiduciary net positions is available in the separately issued CalPERS financial reports.

Note 9 - Post-Employment Health Care Benefits

Plan Description

For employees hired before July 1, 2010, the District provides retiree medical coverage to eligible current employees and one dependent as defined by the plan. Under the Plan, retired employees who attain age 55 with at least ten years of service are eligible to receive benefits until reaching age 65. The District pays 100% of the health insurance benefits’ monthly premium. The spouse of an eligible retiree is also eligible to receive benefits from this plan, and benefits continue until they are Medicare eligible. When the retired employee reaches age 65 the retired employee and the spouse are no longer covered. In accordance with Montecito Sanitary District Board of Directors action taken on June 4, 2010, any employee hired by the District after July 1, 2010 is not eligible for post-employment health care benefits.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and its board of directors. The required contribution is based on projected pay-as-you-go financing requirements. Currently, the District has \$85,690 of unrestricted net position set aside to be used to fund the post-employment health care obligation, and plans to set aside \$30,000 each July until adequate funds have been established. The District pays 100% of costs on behalf of the eligible participants.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 9 - Post-Employment Health Care Benefit (continued)

Annual OPEB Cost and Net OPEB Obligation

The District's OPEB cost is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District accrued the net OPEB obligation of \$73,585 as of June 30, 2015, which is included on the Statement on Net Position with accrued salaries and benefits. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and the changes in the District's net OPEB obligation for plan benefits:

Annual required contribution	\$ 55,071
Contributions made	<u>(41,622)</u>
Increase in net OPEB	13,449
Net OPEB obligation - beginning of year	<u>60,136</u>
Net OPEB obligation - end of year	<u><u>\$ 73,585</u></u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year 2015 and the two preceding fiscal years were as follows:

Fiscal Year	Annual OPEB Cost	Percentage Annual OPEB Cost Contributed	Net OPEB Obligation
<u>Ending</u>	<u>Cost</u>	<u>Cost Contributed</u>	<u>Obligation</u>
06/30/13	\$ 63,533	73%	\$ 38,814
06/30/14	63,147	66%	60,136
06/30/15	55,071	76%	73,585

Funded Status and Funding Progress

As of June 30, 2015, the actuarial accrued liability for benefits was \$326,549, of which \$326,549 was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$1,545,581, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 21% based on the valuation date of March 1, 2015.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress is presented on the following page, and presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 9 - Post-Employment Health Care Benefits (continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Based on the CalPERS retirement rates for the 2% at 55 pension formula.

Marital status – Marital status of members at the calculation date. To the extent not provided 80% of retirees were assumed to be married at retirement. After retirement, the percentage married is adjusted to reflect mortality.

Mortality – Life expectancies were based on CalPERS mortality for Miscellaneous employees.

Turnover – CalPERS turnover for Miscellaneous employees were used as the basis for assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid.

Healthcare cost trend rate – The expected rate of increase in healthcare insurance premiums was assumed at 4 percent per year.

Inflation rate – The expected long-term inflation rate of 2.75 percent was used.

Payroll growth rate – The expected long-term payroll growth rate of 2.75 percent was used.

Discount rate – The expected long-term discount rate of 4.5 percent was used.

In addition, the entry age normal actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll. A closed eleven year amortization period was used in the 2012 and 2015 valuations. An open ten year amortization period was used for any residual UAAL in the 2015 valuation.

MONTECITO SANITARY DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

Note 10 - Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disaster.

The District participates in the California Sanitation Risk Management Authority (CSRMA), which arranges for and provides general liability, property damage, workers' compensation and employee dishonesty liability insurance to its member agencies. The District pays a premium commensurate with the level of coverage requested.

Note 11 - Commitments

The District has entered into two construction contracts for the Sewer Main Rehabilitation project in the amounts of \$1,588,000 and \$132,000 with Insituform and Phoenix Civil, respectively. As of June 30, 2015 \$155,000 has been accrued in accounts payable.

Note 12 - Prior Period Adjustment as a Result of a Change in Accounting Policy

Note 2 describes the GASB pronouncements Montecito Sanitary District is adopting for this and the prior fiscal years. There is a financial impact for the adoption of GASB Statement No. 68, "Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27."

Net Pension Liability

Implementation of GASB Statement No. 68 recognizes a liability for Montecito Sanitary District's proportionate share of the net pension liability of all employers for benefits provided through the California Public Employees' Retirement System (CalPERS). Additionally, Montecito Sanitary District is required to recognize pension expense and report deferred outflows of resources and deferred inflows of resources related to pensions for its proportionate shares of collective pension expense and collective deferred outflows or resources and deferred inflows of resources related to pensions. The effect of this adjustment can be seen below. Because all of the information required to restate prior year was not available at the time the financial statements were available to be issued, prior year values are not presented.

The following table presents the effect of the prior period adjustment on the June 30, 2015 financial statement balances.

Net position, at July 1, 2014, as originally stated	\$ 24,248,109
Decrease in net position due to net pension liability	<u>(1,581,405)</u>
Net position, at July 1, 2014, as restated	<u><u>\$ 22,666,704</u></u>
